The **Information Service Research, International and Transfer – FIT** – is an e-mail service with a research database that provides participating institutions with targeted and tailored information on research funding.

As a member of an institution within the FIT network, you can create an **individual user profile** and select the branches of study, information categories and funding bodies relevant to you. Your individual FIT newsletter containing current funding information will then reach you on a weekday of your choice. You can also search for further information in the **FIT database** at any time.

A service provided by  
**U N I K A S S E L**  
**V E R S I T Ä T**  
– since 2003.

Several **filters** are built into the keyword search to make your search easier.

For example, you can filter search results

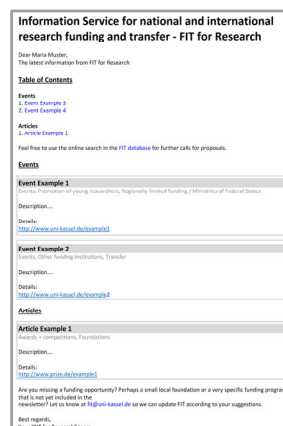

- by creation date,
- by expiration date,
- alphabetically (A – Z, Z –A).

## Individual funding information

In your newsletter settings, you can define individually when you would like to receive which information. Please select the

- **categories,**
  - **funding bodies** and
  - **subject areas**
- that are relevant to you.

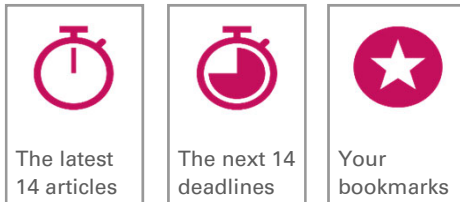

You can decide whether you want to receive new information in one or more newsletters every week.
